

## IN THE SPECIFICATION

Please amend the specification on page 50, fifth paragraph as below:

The invention also relates to clothes or masks containing the components of the present invention. Such clothes or masks will indicate external irradiation by an irreversible color change, e.g. when such clothes are sterilized for instance by gamma-irradiation. Another instance is the use of such clothes or masks in nuclear power stations and nuclear recovery/storage buildings, as protection cloths, e.g. for working staff or civil defense personnel, in case of accident or nuclear attack.
